## **PREAMBLE**

Higher education plays a pivotal role in shaping the employment attributes and / or further accessibility to academic pursuits in the best available world class institutions elsewhere. The quality of higher education, therefore, seeks priority to endow the young generation of students with skill, training and knowledge to enrich their thinking, comprehension and application abilities which will equip them to compete, innovate and excel globally. In order to achieve this, prolonged initiatives need to be undertaken to bring reforms in the present higher education system. Thus, facilitating improvement and upgradation in the academic resources and learning environments by adopting new strategies for raising the quality of teaching and standards of achievements in learning outcomes throughout the post-graduate programs in science, humanities, commerce and professional streams of higher education. The programme learning outcomes include subject-specific skills and generic skills, including transferable global skills and competencies. It would also focus on knowledge and skills that prepare students for further study, research, employment, and research.

Post- Graduate Programmes focus on creating individuals with intellectual prowess, interactive competence, courage to lead the world and also allow compassion and empathy for fellow human beings.

### **Introduction to Programme**

Globalisation in the modern era calls for Quality higher education for preparing the future leaders and lead the nation towards a better future. One of the ways to measure the development of a nation is the advancement of the knowledge of its people. Hence, advanced measures should be taken to improve the quality of knowledge in our society by nurturing quality higher education. This shall include translation of academic research into innovations for practical use in society and economy.

M.Com. programme of the Assam Royal Global University is devised to enable and empower students to acquire knowledge, skills and abilities to blend the contemporary realities concerning the business domain. This programme aims at infusing conceptual understanding to equip students to deal with business realities of today and groom them to drive and face the future challenges. The exposure of the students to the world of technology and digitization in the relevant field is also encouraged as envisaged by the scholars and policymakers.

### **Aims of the Programme:**

The M.Com programme is designed:

- To deliver student-centric, interactive and outcome-oriented knowledge and wisdom;
- To develop human resource to act as think-tank in nation-building endeavour;
- To develop ethically conscious business philosophers to propagate social responsibility;
- To develop entrepreneurial skills;

- To develop ready to be employed business professionals;
- To develop business scientist, researchers and consultants;
- To develop teachers with core business competencies.
- To develop holistic managers with interdisciplinary knowledge

### **Programme Learning Outcomes for M.Com.**

The programme is aimed at following outcomes:

PO1: Business Knowledge: Apply knowledge of business and trade theories and practices to solve business problems.

PO2: Critical Thinking: To foster Analytical and critical thinking abilities for data based decision.

PO3: Leadership: Ability to develop Value based Leadership to lead various types of organisations.

PO4: Communication and Other Skills: Ability to understand, analyze and communicate global, economic, legal, and ethical aspects of business.

PO5: Team Dynamics: Ability to lead themselves by contributing effectively in a team environment.

PO6: Understanding Sustainability Concepts: Ability to develop a comprehensive understanding of sustainable development goals (SDGs) and ethical business practices.

PO7: Opportunity Identification and Evaluation: Ability to analyse the entrepreneurial opportunities and develop a start-up ecosystem.

### **Assessment Methods**

<b>Methods</b>	<b>Weightage</b>
Semester End Examination	50%
Internal Assessment	50%
<b>Total</b>	<b>100%</b>

Internal assessment is based on – Mid-semester Examination, Class test, Assignment, Project, Viva-voce, attendance of the student, seminar, group discussion, field work, display etc.

### **THEORY**

	<b>Component of Evaluation</b>	<b>Marks</b>	<b>Frequency</b>	<b>Code</b>	<b>Weightage(%)</b>

### SYLLABUS (2<sup>ND</sup> SEMESTER)

**Paper I: OPERATION RESEARCH**

**Subject Code: COM044C201**

**L-T-P-C – 4-0-0-4**

**Credit Units: 04**

**Scheme of Evaluation: (T)**

**Course Objective:** The objectives of the course are to familiarize the students with optimization problems and upskill them to analyse quantitative information for decision making.

**Course Outcomes:**

On successful completion of the course the students will be able to:		
COs	Course Outcome	Blooms Taxonomy Level
CO 1	Define key concepts and terminology in Operations Research.	BT 1
CO 2	Explain the significance of Operations Research in improving organizational efficiency and decision-making processes.	BT 2
CO 3	Apply Operations Research techniques such as linear programming, integer programming, and network optimization to solve practical problems.	BT 3
CO 4	Analyze the complexity of optimization problems and select appropriate techniques to solve them.	BT 4
CO 5	Develop decision support systems integrating Operations Research techniques to aid managerial decision-making processes.	BT 5
CO 6	Evaluate the assumptions and limitations of optimization models and their implications on real-world applicability	BT 6

**Detailed Syllabus:**

Modules	Topics and Course content	Periods
<b>I.</b>	<b>Operation Research:</b> Origin and development of Operations Research (O.P.), phases of O.R., characteristics of O.R. model, role of O.R. in managerial decision making, use and limitations of O.R, advantages of OR, Linear Programming Problem (LPP), Meaning, uses and limitations, formulation of general LPP, solutions of LPP, solutions of LPP by graphic method and simplex method, artificial variable technique, duality in linear programming.	<b>25</b>
<b>II.</b>	<b>Assignment and Transportation Problems:</b> Concept of assignment problem; transportation problem: definition, mathematical formulation of transportation problem, to find the initial basic feasible salutation, to derive optimal solution by Modi Method, difference between a transportation problem and an assignment problem.	<b>20</b>
<b>III.</b>	<b>Theory of Games:</b> Theory of Games, Origin, two person and zero-sum (rectangular) game, strategy, maximin and minimax criteria of optimality, saddle point, solution of a rectangular grime with an without saddle point, limitations of games in competition;	<b>20</b>
<b>IV.</b>	<b>Queing Theory:</b> Meaning, Features, classification of queing models, special purpose of queing models, Multi phase service queing model, Multi server queing model, Single server queing model, Probability distribution in queuing model, Performance measure of a queuing system, Application of queuing model, Queuediscipline, Kendall Notation	<b>15</b>
<b>Total</b>		<b>80</b>

**Course Objectives:**

The broad objective of the course is to provide a fundamental understanding of the business research methods employed by firms. The course is aimed at a manager who is the ultimate user of the research and thus is responsible for determining the scope and direction of research conducted.

**Course Outcomes:**

**On successful completion of the course the students will be able to:**

COs	Course Outcome	Blooms Taxonomy Level
CO 1	<b>Define</b> the key terms used in research methodology.	<b>BT 1</b>
CO 2	<b>Understand</b> the various types of research design, strengths and weaknesses of different research methodologies and ethical issues in research.	<b>BT 2</b>
CO 3	<b>Apply</b> appropriate statistical tools and techniques to specific research problem.	<b>BT 3</b>
CO 4	<b>Analyze</b> the research findings to draw appropriate conclusions.	<b>BT 4</b>
CO 5	<b>Evaluate</b> the validity and reliability of research findings.	<b>BT 5</b>
CO 6	<b>Develop</b> research proposals addressing the research gaps.	<b>BT 6</b>

**Detailed Syllabus:**

Modules	Topics and Course content	Periods
<b>I.</b>	<b>Introducing Business Research:</b> Research- Meaning and objectives Types of Research- Difference between Exploratory and Conclusive Research. Business Research – Meaning, Benefits, limitation and areas of applying business research. Steps in Business Research. Role of Research in business. Research Skills, Criteria of good research. Problems encountered by researchers in India. Ethical issues in research: Ethical treatment of respondents, Research problem, technique involved in defining a problem. Research design – Meaning and types	<b>20</b>
<b>II.</b>	<b>Data Sources, Measurement and Data Collection:</b> Sources of Data: Primary and secondary sources of data collection; Scales of Measurement and Scale Evaluation; Reliability- Concept and types of reliability. Validity- Concept and types of validity Observation: Meaning and types of observation	<b>20</b>

	Qualitative Research Methods and Quantitative Research Methods, Survey method, Questionnaire construction and design and Pilot testing. Difference between a Schedule and a Questionnaire. Selection of appropriate methods of data collection. Criteria of evaluating secondary data	
<b>III.</b>	<b>Sampling:</b> Population: Concept; Sample: concept, sampling frame, Steps in selecting a sample; Types of Sampling – Probability sampling and. Non-Probability sampling techniques; Sample size -Meaning and sample size determination, Statistical Errors – Meaning, types of sampling and non-sampling errors and measures to reduce errors	<b>15</b>
<b>IV.</b>	<b>Data Analysis, Interpretation and Reporting:</b> Data Processing: Editing, Coding, Decoding and Data Entry. Hypothesis Formulation, Hypothesis Testing, Type I and Type II error. Data Analysis Techniques: Chi-square test, Z test, t-test, one way ANOVA. Correlation, multiple linear regressions. Role of IT in Research, Brief idea about software used in social science research. Research Report writing: Format, Bibliography; Citations and References - APA, MLA, Chicago style of in text citation and referencing.	<b>25</b>
<b>Total</b>		<b>80</b>

#### **Paper VI: INDUSTRIAL RELATIONS AND LABOUR LEGISLATION**

**Subject Code:** COM044C306

**L-T-P-C – 4-0-0-4**

**Credit Units: 04**

**Scheme of Evaluation: (T)**

**Course objectives:** The objectives of the course are to know the importance of understanding industrial relations in an organization, to familiarize the students with the basic concepts of IR and to provide an insight into the regulatory measures of IR in India.

#### **Course Outcomes:**

On successful completion of the course the students will be able to:		
COs	Course Outcome	Blooms Taxonomy Level
CO 1	<b>Relate</b> the importance of Industrial relations in Indian and Foreign Organisations	<b>BT 1</b>
CO 2	<b>Illustrate</b> the various principles and theories of Industrial relations	<b>BT 2</b>
CO 3	<b>Develop</b> the knowledge of Industrial dispute resolution mechanism	<b>BT 3</b>
CO 4	<b>List</b> out various global labour standards established by ILO	<b>BT 4</b>
CO 5	<b>Explain</b> the various labour rights, employment contracts and workplace safety	<b>BT 5</b>
CO 6	<b>Develop</b> an insight into the regulatory measures of IR in India.	<b>BT 6</b>

#### Detailed Syllabus:

Modules	Topics and Course content	Periods
I.	<b>Introduction to Industrial Relations:</b> Meaning of IR, objectives, forms of IR, importance of IR. Factors affecting IR, functions. Theories/Approaches to Industrial Relations – Unitary, Pluralist, Gandhian Approach, Marxist, System Theory and Human Relations theory, Actors/Players of IR – Employers, Employees and Trade Unions and Government - their roles. Evolution of Industrial Relations, Recent Trends in IR in India. Problems of IR in India. Role of ILO in IR. Concept of Labour Welfare and Workers Education.	20
II.	<b>Trade Unionism:</b> Meaning of Trade Union. Features and functions. Evolution of Trade Union in India. Importance of Trade Union and Problems of Trade union in India. Theories of Trade Union – Revolutionary Theory, Evolutionary Theory, Rebellion Theory, The Gandhian Approach and Theory of Industrial Jurisprudence. Types and Structures of Trade Union in India. Emerging roles of trade unions in India. Trade Union Bodies in India. The Trade Union Act, 1926 - Introduction to the Act and its major Provisions in brief	20
III.	<b>Industrial Conflicts/Disputes:</b> Concept of Industrial Disputes, essentials, classification, impact, causes and measures. Industrial Dispute settling machineries and the process of settlement – Mediation, conciliation, arbitration and adjudication. Grievances – Meaning, content, effects and measures. Discipline in IR. Wage Issues in IR. The Industrial Dispute Act, 1947 – Introduction to the Act and its major Provisions in brief. The Payment of Wages Act, 1936 and The Bonus Act, 1965 in brief - Introduction to the Act and its major Provisions in brief	20
VI	<b>Collective Bargaining and Workers Participation in Management:</b> Collective Bargaining – Meaning, objectives, importance, process, principles and forms. Collective Bargaining in India, essentials, recent developments. Concept of Bipartite and Tripartite Bodies. Workers Participation in Management – Meaning, objectives, forms and levels. WPM in India – essentials. Social Security in India. The Factories Act, 1948 - Introduction to the Act and its major Provisions in brief	20
