1. **Preamble**

The National Education Policy (NEP) 2020 conceives a new vision for India's higher education system. It recognizes that higher education plays an extremely important role in promoting equity, human as well as societal well-being and in developing India as envisioned in its Constitution. It is desired that higher education will significantly contribute towards sustainable livelihoods and economic development of the nation as India moves towards becoming a knowledge economy and society. If we focus on the 21st century requirements, the higher education framework of the nation must aim to develop good, thoughtful, well-rounded, and creative individuals and must enable an individual to study one or more specialized areas of interest at a deep level, and also develop character, ethical and Constitutional values, intellectual curiosity, scientific temper, creativity, spirit of service, and twenty-first-century capabilities across a range of disciplines including sciences, social sciences, arts, humanities, languages, as well as professional, technical, and vocational subjects. A quality higher education should be capable enough to enable personal accomplishment and enlightenment, constructive public engagement, and productive contribution to the society. Overall, it should focus on preparing students for more meaningful and satisfying lives and work roles and enable economic independence. Towards the attainment of holistic and multidisciplinary education, the flexible curricula of the University will include credit-based courses, projects in the areas of community engagement and service, environmental education, and value-based education. As part of holistic education, students will also be provided with opportunities for internships with local industries, businesses, artists, crafts persons, and so on, as well as research internships with faculty and researchers at the University, so that students may actively engage with the practical aspects of their learning and thereby improve their employability. The undergraduate curriculums are diverse and have varied subjects to be covered to meet the needs of the programs. As per the recommendations from the UGC, CURRICULUM FRAMEWORK 2023-24 (NEP2020) introduction of courses related to Indian Knowledge System (IKS) is being incorporated in the curriculum structure which encompasses all of the systematized disciplines of Knowledge which were developed to a high degree of sophistication in India from ancient times and all of

the traditions and practices that the various communities of India—including the tribal communities—have evolved, refined and preserved over generations, like for example Vedic Mathematics, Vedangas, Indian Astronomy, Fine Arts, Metallurgy, etc. At RGU, we are committed that at the societal level, higher education will enable each student to develop themselves to be an enlightened, socially conscious, knowledgeable, and skilled citizen who can find and implement robust solutions to its own problems. For the students at the University, Higher education is expected to form the basis for knowledge creation and innovation thereby contributing to a more vibrant, socially engaged, cooperative community leading towards a happier, cohesive, cultured, productive, innovative, progressive, and prosperous nation.”

1.1 Introduction:

At the societal level, higher education must enable the development of an enlightened, socially conscious, knowledgeable, and skilled nation that can find and implement robust solutions to its own problems. Higher education must form the basis for knowledge creation and innovation thereby contributing to a growing national economy. The purpose of quality higher education is, therefore, more than the creation of greater opportunities for individual employment. It represents the key to more vibrant, socially engaged, cooperative communities and a happier, cohesive, cultured, productive, innovative, progressive, and prosperous nation.

A university will mean a multidisciplinary institution of higher learning that offers undergraduate and graduate program, with high quality teaching, research, and community engagement. Looking at all these new concepts and progress, the detailed syllabus of BA (H) – Administrative Services has been designed and decided to be implemented from the academic session 2023-24.

1.2 Approach to Curriculum Planning

The fundamental premise underlying the learning outcomes-based approach to curriculum planning and development is that higher education qualifications such as a Bachelor’s Degree (Hons) programmes are earned and awarded on the basis of (a) demonstrated achievement of outcomes (expressed in terms of knowledge,

understanding, skills, attitudes and values) and (b) academic standards expected of graduates of a programme of study.

The expected learning outcomes are used as reference points that would help formulate graduate attributes, qualification descriptors, programme learning outcomes and course learning outcomes which in turn will help in curriculum planning and development, and in the design, delivery, and review of academic programmes.

Learning outcomes-based frameworks in any subject must specify what graduates completing a particular programme of study are (a) expected to know, (b) understand and (c) be able to do at the end of their programme of study. To this extent, LOCF in Sociology is committed to allowing for flexibility and innovation in (i) programme design and syllabi development by higher education institutions (HEIs), (ii) teaching-learning process, (iii) assessment of student learning levels, and (iv) periodic programme review within institutional parameters as well as LOCF guidelines, (v) generating framework(s) of agreed expected graduate attributes, qualification descriptors, programme learning outcomes and course learning outcomes.

The key outcomes that underpin curriculum planning and development at the undergraduate level include Graduate Attributes, Qualification Descriptors, Programme Learning Outcomes, and Course Learning Outcomes.

The LOCF for undergraduate education is based on specific learning outcomes and academic standards expected to be attained by graduates of a programme of study. However, an outcome-based approach identifies moves away from the emphasis on what is to be taught to focus on what is learnt by way of demonstrable outcomes. This approach provides greater flexibility to the teachers to develop—and the students to accept and adopt—different learning and teaching pedagogy in an interactive and participatory ecosystem. The idea is to integrate social needs and teaching practices in a manner that is responsive to the need of the community. HEIs, on their turn, shall address to the situations of their students by identifying relevant and common outcomes and by developing such outcomes that not only match the specific needs of the students but also expands their outlook and values.

1.2.1 Nature and Extent of Bachelor's Degree Programme in Administrative Services (Honours)

A bachelor's degree in Administrative Services is a 4 years degree course which is divided into 8 semesters as under.

Semester	Course Credits									Total
	Major	Minor	ID	AEC	SEC	VAC	SI	RP	SWAYAM Course	
I	6	3	3	2	3	3	0	0	3-6	20+
II	6	3	3	2	3	3	0	0	3-6	20+
III	8	4	3	2	3	0	0	0	3-6	20+
IV	12	6	0	2	0	0	0	0	3-6	20+
V	12	4	0	0	0	0	4	0	0	20
VI	16	4	0	0	0	0	0	0	0	20
VII	16	4	0	0	0	0	0	0	0	20
VII	4	4	0	0	0	0	0	12	0	20
	80	32	9	8	9	6	4	12	12	180+

A student pursuing 4 years undergraduate program in Administrative Services shall be awarded Degree with research in that discipline on completion of 8th Semester if he/she secures 160 Credits.

Bachelor's Degree (Honours) is a well-recognized, structured, and specialized graduate level qualification in tertiary, collegiate education. The contents of this degree are determined in terms of knowledge, understanding, qualification, skills, and values that a student intends to acquire to look for professional avenues or move to higher education at the postgraduate level.

Bachelor's Degree (Honours) programs attract entrants from the secondary level or equivalent, often with subject knowledge that may or may not be directly relevant to the field of study/profession. Thus, BA (Honours) Course in Administrative Services aims to equip students to qualify for joining a profession or to provide development opportunities in particular employment settings. Graduates are enabled to enter a variety of jobs or to continue academic study at a higher level.

1.2.2 Aims of Bachelor's Degree (Honours) Programme in Administrative Services:

The overall objectives of the Learning Outcomes-based Curriculum Framework (LOCF) for BA-Honours degree in Administrative Services are-

1. To impart the basic knowledge of all the subjects related to Civil Services.
2. To impart more multi-disciplinary and holistic course curriculum.
3. To ensure that the students do not fear the Civil Services Syllabus.
4. To develop the learner into competent and efficient in the field of Administration.
5. To prepare socially responsible administrators and professionals with global vision.

1.3 Graduate Attributes

Sl.no.	Graduate Attribute	The Learning Outcomes Descriptors (The graduates should be able to demonstrate the capability to:)
GA1	Disciplinary Knowledge	acquire knowledge and coherent understanding of the chosen disciplinary/interdisciplinary areas of study.
GA 2	Complex problem solving	solve different kinds of problems in familiar and non-familiar contexts and apply the learning to real-life situations.
GA 3	Analytical & Critical thinking	apply analytical thought including the analysis and evaluation of policies, and practices. Able to identify relevant assumptions or implications. Identify logical flaws and holes in the arguments of others. Analyse and synthesize data from a variety of sources and draw valid conclusions and support them with evidence and examples.
GA 4	Creativity	create, perform, or think in different and diverse ways about the same objects or scenarios and deal with problems and situations that do not have simple solutions. Think 'out of the box' and generate solutions to complex problems in unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills, and emotional intelligence.
GA 5	Communication Skills	listen carefully, read texts and research papers analytically, and present complex information in a clear and concise manner to different groups/audiences. Express thoughts and ideas effectively in writing and orally and communicate with others using appropriate media.
GA 6	Research-related skills	develop a keen sense of observation, inquiry, and capability for asking relevant/ appropriate questions. Should acquire the ability to

		problematize, synthesize and articulate issues and design research proposals, define problems, formulate appropriate and relevant research questions, formulate hypotheses, test hypotheses using quantitative and qualitative data, establish hypotheses, make inferences based on the analysis and interpretation of data, and predict cause-and-effect relationships. Should develop the ability to acquire the understanding of basic research ethics and skills in practicing/doing ethics in the field/ in personal research work.
GA 7	Collaboration	work effectively and respectfully with diverse teams in the interests of a common cause and work efficiently as a member of a team.
GA 8	Leadership readiness/qualities	plan the tasks of a team or an organization and setting direction by formulating an inspiring vision and building a team that can help achieve the vision.
GA 9	Digital and technological skills	use ICT in a variety of learning and work situations. Access, evaluate, and use a variety of relevant information sources and use appropriate software for analysis of data.
GA 10	Environmental awareness and action	mitigate the effects of environmental degradation, climate change, and pollution. Should develop the technique of effective waste management, conservation of biological diversity, management of biological resources and biodiversity, forest and wildlife conservation, and sustainable development and living.

1.4 Qualification Descriptors for a Bachelor's Degree Programme in Administrative Services

The qualification descriptors for a Bachelor's Degree programme in Administrative Services may include the following:

- Demonstrate
 - (i) A systematic or coherent understanding of the various subjects involved in the Competitive Exams
 - (ii) Knowledge that will help them clear the Competitive Exams
 - (iii) Skills in areas related to specialization area relating the subfields and current developments UPSC and State services.
- Use knowledge, understanding and skills required for identifying problems and issues relating to administration.
- A keen interest in research and the study of Administrative Services.
- Meet one's own learning needs, drawing on a range of current research and development work and professional materials.

- Demonstrate subject-related and transferable skills that are relevant to administrative related issues in our day-to-day activities.
- Develop analytical power and logical approach to problem-solving
- Good oral and written communication abilities
- Able to work independently or with team members

1.5 Programme and Learning Outcomes relating to B.A. (Honours) Degree Programme in Administrative Services

PLO-1	<p>Knowledge of Administrative services and its application</p> <p>Ability to attain systematic or coherent knowledge and understanding of the academic field of Administration, its different learning areas and applications, and its linkages with related disciplinary areas/subjects.</p>
PLO-2	<p>Complex Problem Solving related to Administration</p> <p>Ability to solve administrative issues, understanding and skills required for identifying problems and issues relating to Administration.</p>
PLO-3:	<p>Developing an analyzing and problem-solving attitude</p> <p>Enable students to focus on socio-political and economic issues and administrative problems and ability to suggest measures to solve those problems by analyzing them.</p>
PLO-4	<p>Moral ethical and creative understanding of issues</p> <p>Demonstrate subject-related skills that a student can use in further studies and future projects with moral and ethical justification by creatively understanding a situation.</p>
PLO-5	<p>Enhancing leadership quality</p> <p>Ability to participate, contribute and provide collective academic challenges in the subject domain. Enhance the students to build communication in leadership quality, co-operation and co-ordination to accomplish the task.</p>
PLO-	Focus on Research competence
6	<p>Capable the students to use and operate computer literacy and knowledge to study not only administrative services but also for the entire understanding in life so that it will help them in research related activities.</p>

PLO-7	Developing interest for Higher Academic collaboration Ability to listen to and read carefully various viewpoints and engage with high level academic deliberations and collaborations.
PLO-8	Developing Leadership Qualities Ensuring that the students are given leadership qualities by making them engage with the society at large.
PLO-9	Developing aptitude for digital learning Ability to make students to use digital platforms to enhance their learning capacity
PLO-10	Developing Interdisciplinary Learning Enable the students to pursue inter-disciplinary subject knowledge

Programme Specific Outcomes of Administrative Services

PSO-1: Knowledge of administration, contemporary social, political, and economic issues

PSO-2: Ability to apply knowledge in terms of problem solving and other issues.

PSO-3: Ability to perform as a Public Servants and policy makers

PSO-4: Acquiring knowledge, competency, and confidence to take up career in Indian Administrative Service and other allied services.

1.6 Teaching-Learning Process

Teaching and learning in this program involve classroom lectures as well tutorials. It allows-

- The tutorials allow a closer interaction between the students and the teacher as each student gets individual attention.
- Written assignments and projects submitted by students
- the project-based learning
- Group discussion
- Home assignments
- Quizzes and class tests
- PPT presentations, Seminars, interactive sessions
- Socio-economic survey
- Co-curricular activity etc.
- Industrial Tour or Field visit

1.7 Assessment Methods

	Component of Evaluation	Marks	Frequency	Code	Weightage (%)
A	Continuous Evaluation				
i	Analysis/Class test	Combination of any three from (i) to (v) with 5 marks each	1-3	C	25%
ii	Home Assignment		1-3	H	
iii	Project		1	P	
iv	Seminar		1-2	S	
v	Viva-Voce/Presentation		1-2	V	
vi	MSE	MSE shall be of 10 marks	1-3	Q/CT	5%
vii	Attendance	Attendance shall be of 5 marks	100%	A	
B	Semester End Examination		1	SEE	70%
	Project				100%

Semester – I (IDC)		
Paper I/Subject Name: Introduction to Indian Knowledge System - I Subject Code: IKS992K101 L-T-P-C – 2-1-0-3 Credit Units: 3 Course Level: 100 Scheme of Evaluation: Theory		
Credit Distribution (NCH)		
Lecture/Tutorial (Hours)	Practical (Hours)	Experiential Learning (Hours)
60	0	30

Course Objectives:

This Foundation course is designed to present an overall introduction to all the streams of IKS relevant to the UG program. It would enable students to explore the most fundamental ideas that have shaped Indian Knowledge Traditions over the centuries.

Course Outcomes:

On completion of this course students will be able to:

CO	Contents	BT Level
CO ₁	Recall the rich heritage of Indian knowledge systems	BT level 1
CO ₂	Describe the contribution of Indian knowledge systems to the world	BT level 2
CO ₃	Demonstrate knowledge of sociocultural and ethnolinguistic diversity that constitutes the soul of Bharatvarsha	BT level 2
CO ₄	Apply traditional knowledge and techniques in day-to-day life	BT level 3
CO ₅	Distinguish knowledge traditions that originated in the Indian subcontinent	BT level 3

Module	Course Contents	Periods
I	<p>Introduction to Indian Knowledge Systems (IKS): About Indian Knowledge System; Definition of Indigenous/ Traditional Knowledge; Scope, and Importance of Traditional Knowledge.</p> <p>Ancient India- Bharat Varsha: People of Ancient Bharat Varsha; Our great natural heritage: The great Himalayas and the rivers; The civilizations of the Sindhu-Ganga valley, and the Brahmaputra valley; Our coastal plains; Our Nature: Forests and Minerals; Ancient Indian Traditional Knowledge and Wisdom about nature and climate.</p>	15

Module	Course Contents	Periods
II	<p>Indian Heritage of Knowledge: Ancient Indian Knowledge: The <i>Vedas</i> and its components-the <i>Vedangas</i> Ancient Indian books and treaties: The <i>Sastras</i>.; The Great Indian Epics: The Ramayana and The Mahabharata Epics and religious treaties of ancient Assam: Introduction to Madhav Kandali's <i>Ramayan</i> and Srimanta Sankardev's <i>Dasam Skandha Bhagavat</i> of the Puranas; Ancient Traditional Knowledge-The <i>Agamas</i> ; The ancient Buddhist knowledge: <i>Tripitaka: Vinaya, Sutta</i> and <i>Abhidhamma Pitaka</i></p> <p>Languages and language studies in India: What is linguistics?; Script and Language; Alphabet of the Indian; languages <i>Varnamala</i>: Origin, Evolution, and phonetic features; Languages of India; Important texts of Indian languages: Skills <i>Siksha</i>, Expression/Pronunciation-<i>Nirukta</i>, Grammar-<i>Vyakarana</i>, Poetic rhythm-<i>Chandas</i>;Paninian Grammar: A Brief Introduction</p> <p>Introduction to Fine Arts and Performing Arts of India: Ancient Indian classical music and dance forms: The Science of Dramas-<i>Natyasastra</i> and the Science of Music-<i>Gandharva-Veda</i>; Aesthetics in Indian Art and Culture; Folk music and traditional dance forms of the Northeast.</p>	15
III	<p>Indian Science & Technology: Ancient India's contribution to Mathematics - Number System. Algebra and Arithmetic, Geometry and Trigonometry; Origin of Decimal system in India; nomenclature of numbers in the Vedas. Zero and Infinity. Sulbasutras. Contribution of Brahmagupta and Sridhar Acharya to Mathematics. Important texts of Indian mathematics.</p> <p>Indian Astronomy: Planetary System. Motion of the Planets; Velocity of Light; Eclipse. Astronomy. Navagrahas. Important works in Indian Astronomy. Aryabhata and Nilakantha: Contribution to Astronomical Studies</p> <p>Indian Metal Works: Mining Techniques. Types of Metals. Tools & Techniques for Metal Smelting with examples. Metalworks in pre-modern India: Special reference to NE India.</p>	15

IV	Contribution of Ancient India to Health Sciences: Traditional Indigenous systems of medicines in India: - <i>Ayurveda</i> and <i>Yoga</i> ; Elements of <i>Ayurveda</i> : <i>Gunas</i> and <i>Doshas</i> , <i>Pancha Mahabhuta</i> and <i>Sapta-dhatu</i> ; Concept of disease in <i>Ayurveda</i> ; Ayurvedic lifestyle practices: <i>Dinacharya</i> and <i>Ritucharya</i> ; Important Ayurvedic Texts; Hospitals in Ancient India; <i>Ayurveda</i> : Gift of India to the modern world.	15

SEMESTER II (Major)
Paper Name: Climatology & Oceanography Paper Code: ADM182M202 L-T-P-C: 2-1-0-3 Credit Units: 3 Scheme of Evaluation: Theory Level: 100

Course Objectives:

This course is designed as an Understand the atmospheric elements, processes and resultant weather and climates. Comprehend the impact of climate on planet earth.

CO1	To remember the structure and composition of earth's atmosphere.	BT1
CO2	To understand the importance of Geography for civil services.	BT2
CO3	To apply concept of climate change.	BT3
CO4	To analyze the impact of climate change.	BT4

Detailed Syllabus:

Modules	Course Contents	Periods
I	Earth's Atmosphere <ol style="list-style-type: none"> 1. The structure and composition of Earth's atmosphere; Elements of weather and climate; Factors affecting the distribution of temperature; Vertical and horizontal and seasonal distribution of temperature 2. Insolation and heat budget; Temperature inversion; Atmospheric pressure and circulation of planetary winds; Air masses and their characteristics 	15
II	Climatology <ol style="list-style-type: none"> 1. Cyclones: Tropical Cyclones, Temperate Cyclones, Monsoon - Origin and Mechanism, Jet Streams 2. Atmospheric Moisture: Evaporation, Humidity, Condensation, Fog and Clouds, Precipitation Types, Stability and Instability 3. Climatic Regions, Climate change and global warming, El Nino. 	15
III	Oceanography <ol style="list-style-type: none"> 1. Ocean floor topography of Indian, Atlantic and Pacific oceans 2. Oceanic water Movements: Waves, Currents, Tsunamis and Tides. 	15
IV	Ocean Related Issues <ol style="list-style-type: none"> 1. Ocean Salinity and Temperature: Distribution and Determinants. 2. Coral Reefs and Marine Deposits and Ocean Resources. 	15

SEMESTER V (Major)
Paper Name: Internship Paper Code: ADM182N521 L-T-P-C: 0-0-4-4 Credit Units: 4 Scheme of Evaluation: Theory Level: 300

Course Objectives:

The objective of the course is to help the in applying theoretical knowledge to real-world political and administrative settings, enhancing understanding of governance, public policy, and institutional processes at local, national, or international levels. The course will also help to develop practical skills in political research, data analysis, and policy evaluation through guided experiential learning in government offices, NGOs, think tanks, or political organizations.

CO1	To demonstrate the ability to connect core political theories and concepts with on-ground practices in policymaking, governance, or administrative procedures at local, national, or international levels.	BT1
CO2	To conduct structured political research, analyze relevant data sets, and produce evaluative summaries or recommendations on policy initiatives or political phenomena.	BT2

Guidelines:

- 1) The internship will be of four weeks.
- 2) Students are to identify the organizations in alignment with the following broad areas relevant to the discipline of Political Science, such as-
 - NGOs
 - News agencies
 - Political Parties
 - Governmental institutions (local, state and national)
 - Academic institutions
- 3) Students are required to contact the respective organisations and intimate the concerned supervisor, who shall then issue a Bonafide Certificate highlighting the objective of the internship and the number of weeks to be fulfilled during the internship.
- 4) Students are to maintain a daily internship diary and provide geotagged pictures in the respective WhatsApp groups.
- 5) Upon completion of the internship, students must provide a detailed report and a presentation accompanied by a viva-voce.

SEMESTER VI (Major)
Paper Name: Indian Economics Paper Code: ADM182M601 L-T-P-C: 3-1-0-4 Credit Units: 4 Scheme of Evaluation: Theory Level: 300

Course Objectives:

The objective of the course is to help the students to understand the basics of Indian economy. The course will also help in understanding the basic concepts associated with the Indian economy.

CO1	To gain knowledge about the Indian Economic system.	BT1
CO2	To understand the factors & mechanisms within the Indian economy.	BT2

Detailed Syllabus:

Modules	Course Contents	Periods
I	National Income <ol style="list-style-type: none"> 1. Composition, trend and pattern of national income 2. Method of estimation and problem areas 3. Inequality in national income distribution- inter personal and inter regional, Broad development indices 	15
II	Agriculture <ol style="list-style-type: none"> 1. Role, nature and cropping pattern; production and productivity trend, causes of low productivity and measures to increase production and productivity 2. Colonial legacy, green revolution, land reforms, problems of agricultural marketing in India- and remedial measures 3. Institutional and non-institutional finance; rural indebtedness; post 1991 scenario 	15
III	Industry <ol style="list-style-type: none"> 1. Industry in pre-plan period, second five-year plan and Indian industry 2. Industrial policy- 1956 and 1991, importance and problems of MSME sector, public sector undertaking- importance and problems 3. SEMESTER VI (Major)
Paper Name: Research Methodology I Paper Code: ADM182M602 L-T-P-C: 3-1-0-4 Credit Units: 4 Scheme of Evaluation: Theory Level: 300

Course Objectives:

The objective of the course is to help the students to understand foundational knowledge and practical skills in social science research, particularly in political science. The course will also help in formulating research questions, explore various research designs, and apply comparative methods. The course also introduces data collection techniques, sampling methods, and essential tools such as questionnaires and interviews.

CO1	Define and describe the scope of social science research, its significance in political science, and the process of identifying research gaps.	BT1
CO2	Differentiate between various research designs, formulate research questions and hypotheses, and apply the comparative method in social science research.	BT2
CO3	Identify appropriate sources of data, implement probability and non-probability sampling methods, and use tools such as questionnaires, interviews, and observations.	BT3
CO4	Process and analyze research data using descriptive and inferential statistics and write well-structured research proposals and reports while ensuring ethical integrity.	BT4

Detailed Syllabus:

Modules	Course Contents	Periods
I	Introduction to Social Science Research 1. Meaning, Nature and Scope of Social Science Research. 2. Literature Review, Statement of the Problem and Research Gap. 3. Differences between Qualitative and Quantitative Research, Positivism vs. Interpretivism	15
II	Research Design and Methods 1. Formulating Research Questions and Hypotheses. 2. Types of Research Designs. 3. Comparative Method in Social Science Research.	15
III	Sampling and Data Collection 1. Sources of Data: Primary and Secondary Data. 2. Sampling Methods: Probability and Non-Probability Sampling. 3. Tools of Data Collection: Questionnaire, Interview, and Observation.	15
IV	Data Interpretation and Report Writing 1. Data Processing: Coding, Classification, and Tabulation. 2. Basics of Interpretation and Analysis (Descriptive and Inferential Statistics). 3. Writing a Research Proposal and Report: Structure and Ethical Considerations.	15

SEMESTER VI (Major)
Paper Name: World Geography Paper Code: ADM182M603 L-T-P-C: 3-1-0-4 Credit Units: 4 Scheme of Evaluation: Theory Level: 300

Course Objectives:

The objective of the course is to help the students to understand the factors responsible for the location of industries. The course will also help in comprehending climatology.

CO1	To gain familiarity with the universe- theories, formation & recent developments.	BT1
CO2	To identify the mass movements of landforms.	BT2
CO3	To analyze the factors responsible for the location of industries.	BT3

Detailed Syllabus:

Modules	Course Contents	Periods
I	Universe 1. Theories, Formation and recent developments, 2. Basic idea about Earth - motion of the Earth, Inclination of earth axis and seasons, Eclipses, 3. Tides and its effects, Interior of the earth - Lithosphere and its composition	15
II	The Hydrosphere 1. Ocean relief, Salinity, Ocean currents, Ocean deposits and resources 2. Biosphere - Major Biomes, Flora and fauna, Conservation of Biodiversity 3. Geomorphology - Exogenic and Endogenic movements, Earthquake, Volcanoes, Theories - Continental Drift theory, Plate tectonics, sea floor spread theory	15
III	Economic Geography 1. Land Resources, Forest Resources, Water Resources, 2. Mass Movements of landforms, erosion and deposits, 3. Agricultural, Mineral and Energy Resources, 4. Rock system and Classification of Rocks, Factors Responsible for the Location of Industries	15
IV	Climatology 1. Atmosphere, temperature distribution, Clouds, precipitation, 2. Pressure Belts, Winds, Cyclones, Jet Streams, Ozone layer, 3. Geographical Features and their location	15

SEMESTER VIII (Major)
Paper Name: Research Methodology II Paper Code: ADM182N801 L-T-P-C: 3-1-0-4 Credit Units: 4 Scheme of Evaluation: Theory Level: 400

Course Objectives:

The objective of the course is to provides a comprehensive understanding of qualitative, quantitative and mixed research methods including its definition, scope, and philosophical foundations. It explores key research designs such as ethnography and case studies, along with data collection methods like interviews and observations. The course will also help in understanding data analysis techniques, including coding and thematic analysis, while ensuring research trustworthiness.

CO1	Demonstrate an understanding of the fundamental concepts of qualitative quantitative and mixed methods research.	BT1
CO2	Apply appropriate qualitative and quantitative research designs and data collection methods.	BT2
CO3	Analyze qualitative and quantitative data using different analytical techniques.	BT3

Detailed Syllabus:

Modules	Course Contents	Periods
I	Introduction to Qualitative Research 1. Meaning, Nature, and Scope of Qualitative Research 2. Epistemological and Ontological Considerations 3. Reliability and Validity in Qualitative Research	15
II	Qualitative Research Designs, Data Collection and Data Analysis Methods 1. Ethnography, Case Study, Grounded Theory, Phenomenology, Narrative, Feminist Research 2. Participant Observation, In-Depth Interviews, Focus Groups 3. Coding, Thematic Analysis, Narrative Analysis, Content Analysis & Discourse Analysis	15
III	Introduction to Quantitative Research 4. Meaning and Nature of Quantitative Research 5. Data Collection Tools: Structured Interviewing, Self-Completion Questionnaires, Structured Observation 6. Statistical Tools in Data Analysis: Descriptive and Inferential Statistics	15
IV	Mixed Methods Research 2. Meaning of Mixed Methods Research 3. Combining Qualitative and Quantitative Research: Triangulation 4. Importance of Mixed Methods Research	15

Semester–VIII (Minor)
Paper I/Subject Name: Research Methodology CODE: ADM182N801 L-T-P-C: 3-1-0-4 Credit Units: 4 Scheme of Evaluation: Theory Course Level: 400

Course Objectives:

- 1) This course aims to equip students with foundational knowledge and practical skills in social science research, particularly in political science.
- 2) This course covers the meaning, nature, and significance of research, including problem identification and literature review.
- 3) Students will learn to formulate research questions, explore various research designs, and apply comparative methods.
- 4) The course also introduces data collection techniques, sampling methods, and essential tools such as questionnaires and interviews.

After successful completion of the course, the students will

CO 1:	Define and describe the scope of social science research, its significance in political science, and the process of identifying research gaps.	BT 1
CO 2:	Differentiate between various research designs, formulate research questions and hypotheses, and apply the comparative method in social science research.	BT 2
CO 3:	Identify appropriate sources of data, implement probability and non-probability sampling methods, and use tools such as questionnaires, interviews, and observations.	BT 3
CO 4:	Process and analyze research data using descriptive and inferential statistics and write well-structured research proposals and reports while ensuring ethical integrity.	BT 4

Detailed Syllabus:

Modules	Topics & Course Contents	Periods
I	Unit-I: Introduction to Social Science Research Meaning, Nature and Scope of Social Science Research. Literature Review, Statement of the Problem and Research Gap. Differences between Qualitative and Quantitative Research, Positivism vs. Interpretivism	15
II	Unit-II: Research Design and Methods Formulating Research Questions and Hypotheses. Types of Research Designs. Comparative Method in Social Science Research.	15
III	Unit-III: Sampling and Data Collection Sources of Data: Primary and Secondary Data. Sampling Methods: Probability and Non-Probability Sampling. Tools of Data Collection: Questionnaire, Interview, and Observation.	15
IV	Unit-IV: Data Interpretation and Report Writing Data Processing: Coding, Classification, and Tabulation. Basics of Interpretation and Analysis (Descriptive and Inferential Statistics). Writing a Research Proposal and Report: Structure and Ethical Considerations.	15
